Saber Pro Mock Test

1

Type of resource	Guide to Saber Pro test
Description of the resource	This guide provides an overview of the state test for higher education called Saber Pro and offers an interactive site to know the test, practice and get prepared.
Target population	This resource can be used by all higher education students who are going to take the state test.
Resource designer	Edwin Londoño Alape, language teacher at UNAD, School of Educational Sciences, 2024.

English

This Saber Pro module evaluates the student's communicative competence in the English language to account for what the student is able to do, as expressed in the Common European Framework, through reading, grammar and lexical tasks. The module is organized in 7 parts.

Part 1.

You will find 5 descriptions and a list of 8 words. You should look for the relationship between the words and the descriptions and select the correct letter on the answer sheet.

Part 2.

You will find 5 notices and you must decide to which site, from those included in the answer options, corresponds to each of these.

Part 3.

You will find 5 short conversations. You must complete the conversation by choosing the correct option from the 3 given.

Part 4.

You will find a text with 8 spaces that you must fill in by selecting the word that has the correct structure for each space.

Part 7.

You will find a text with 10 spaces that you must fill in by selecting the word that has the correct meaning or structure for each space.

Part 5.

You will find a text followed by 7 questions of reading comprehension basic level.

Part 6.

You will find a text followed by 5 questions of reading comprehension complex level.

As a practical exercise, the following mock test is proposed so that you can practice and get prepared for the test. Enter this site and develop the activities proposed there.
